

Guyana's Fish Crisis

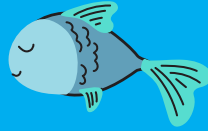

The Impact of Oil Production

More than 40% of Guyanese cannot afford sufficient fish

www.oggn.org/fish

Fish provide protein and nutrients we need

Oil Production dumps highly poisonous chemicals into the sea

Fishing has been part of our culture and provides employment

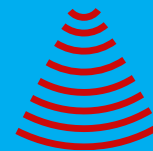

www.oggn.org/fish

The quality and quantity of fish have been decreasing since 2003

Demand sustainable and enforceable guidelines for the fish environment

“Vibration chasing away the fish”

www.oggn.org/fish
